I'm a dynamic, result-oriented and strong customer focused front-end developer with 1+ years of experience in building responsive and user-centric web applications. Proficient in HTML5, CSS3, JavaScript and modern front-end framework React.js. I have a proven track of translating design mockups and wireframes into pixel-perfect, intuitive user interfaces. Additionally, I'm experienced in utilizing preprocessors like SCSS, version control systems like Git, and task runners like Webpack. Strong collaborator with a passion for staying updated and emerging web technologies and best practices. I'm eager to learn and work on myself to sharpen my skills. Excellent communication abilities are key in my work!

EXPERIENCE

Freelance & Self-employed | Feb, 2023 – Present as *Frontend Developer*
